

2025 Bank of America Shamrock Shuffle Sustainability and Social Impact Report

BANK OF AMERICA
SHAMROCK SHUFFLE

Incorporation of environmentally and socially responsible practices is an important aspect in the planning, preparation and execution of the Bank of America Shamrock Shuffle. We would like to thank participants, volunteers, community partners, sponsors and spectators for helping us create a more sustainable event.

4,512

pounds of discarded organic materials
were composted.

\$16,530

was raised to advance health,
wellness and environmental
stewardship through the
Advocate Charitable Foundation,
Chicago Parks Foundation and the
Ronald McDonald House
Charities.

11,580

pounds of
material was
recycled.

\$9,775

in donations were made to
local organizations and
schools who volunteered
as a group at the event.

Bib 321

In 2023, the Bank of America
Shamrock Shuffle joined the
movement started by Chris Nikić and
reserved bib number 321 for
neurodivergent participants to ensure
representation of neurodivergent
athletes in endurance races.

The Mile

a one-mile race that welcomes participants of all abilities, hosted multiple high school cross country and track teams and sports-based youth development programs from the Chicagoland area. Schools were provided free entries and an event stipend to remove financial barriers to participation.

Event participant shirts were made from
100% recycled polyester
using less energy, water, and oil.
